- Main speaker dimensions (W x H x D): 156 x 231 x 190 mm
- Packaging dimensions (W x H x D): 434 x 314 x 349 mm
- Weight incl. packaging: 7.5 kg

Product highlights

Incredible Surround™
Incredible Surround™ is an audio technology from Philips that dramatically magnifies the sound field to immerse you in the audio. Using state-of-the-art electronic phase shifting, Incredible Surround™ mixes sounds from left and right in such a way that it expands the virtual distance between the two speakers. This wider spread greatly enhances the stereo effect and creates a more natural sound dimension. Incredible Surround™ allows you to experience total surround with greater depth and width of sound, without the use of additional speakers.

Digital sound control
Digital Sound Control lets you select from pre-set modes that control the frequency bands of sound to optimise certain musical styles. You can chose between different sound settings - Optimal, Jazz, Rock, Techno, Pop or Classic. Each mode uses graphic equalising technology to automatically adjust the sound balance and enhance the most important sound frequencies in your chosen music style. Digital Sound Control lets you get the most out of your music by adjusting the sound balance to match the music type you are playing.

Dynamic Bass Boost
Dynamic Bass Boost maximises your music enjoyment by emphasising the bass content of the music throughout the range of volume settings - from low to high – at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

2x10W RMS/ 2x20W music power

Wake up & sleep timer

Full logic tape deck

40 presets digital tuning

Elegant wood-finished speakers
